

1 PIPES

1

1.4 Henco multilayer pipes with protective sleeve

2

PE-Xc/Al/PE-Xc piping running through floors, walls or ceilings should always be protected with a sleeve. Also, it is advisable to protect the pipes after assembly against damages caused by other work being done on the site.

3

The protective sleeve in red, blue, yellow or black is made of polyethylene and is as pipe in pipe or separately available.
