## Tile Backer Board

Lightweight insulated tile backer board developed specifically for the thermal insulation of tiled floors. It is constructed from an extruded polystyrene core covered on both sides by a glass fibre mesh reinforced polymer cement coating. It has exceptional compressive strength and moisture resistance. 6, 10 or 20mm thicknesses, can be fixed to any surface and has a keyed surface ready to receive tile adhesive. Easy to work with - cut with a knife or saw and is lightweight and easy to handle.

Part No.	Description	Price Each
