GET EXPERT TECHNICAL SUPPORT

Multipipe is here to help installers with a hands-on approach. Dependent on availability, you can get site experienced assistance from our Man in a Van support. Carrying on-board spares to fix immediate problems and training on-site or in-branch, have complete confidence in our product's features and utility.

HIGH-QUALITY PRODUCTS

As an installer, you can choose from a range of innovative piping products. With huge levels of UK held stock and next-day delivery, you can always get the parts you need when you need them most. Don't sacrifice speed of delivery for the quality of the product.

You're guaranteed the highest quality products supplied by our leading European manufacturer partners. With our total belief in the quality of our products, you can benefit from our industry leading warranties to ensure the long-term safety of your projects and your satisfaction.

PRODUCTS

MULTILAYER PIPES & FITTINGS

5 types of connection in 1 pipe for total flexibility for your installation. Get the advantages of both metal and plastic piping in one innovative product.

Easy to form – bend by hand for quick installations

Low weight making it easy to install

No snapback when bending - keeps its form

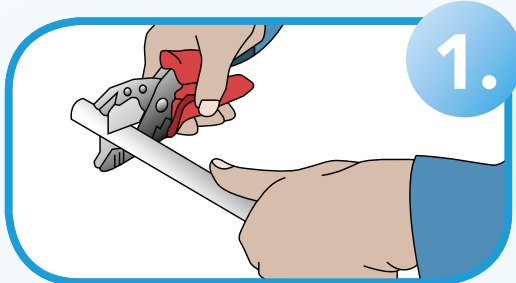

No deposit build-up or corrosion

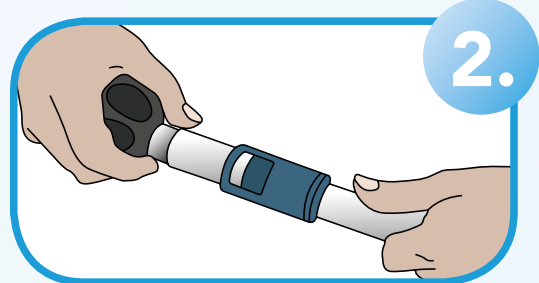

Low heat expansion – performs similarly to metal pipes

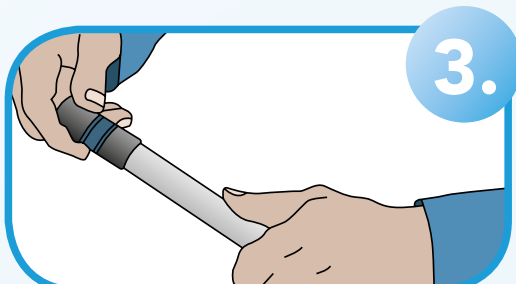

THERE ARE ONLY 4 STEPS TO INSTALLATION:

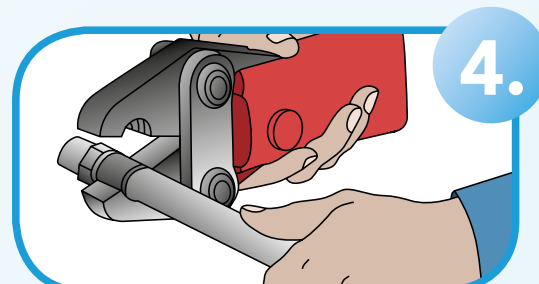

Cut the pipe square using a guillotine cutter.

Calibrate the pipe using the correct bevelling tool.

Slide the fitting onto the pipe until it appears in the inspection window.

Position the press tool jaws between the double guides on the sleeve and press the fitting. Close jaws and start pressing procedure.

TESTIMONIALS

I only use **Multipipe**. They trained us well, I love their products and their service and support is excellent.

Steve Harold, Installer

Good support on the technical and sales side and my clients like the product. We have guys that will only use **Multipipe**.

HPS Worthing, Merchant

From the beginning of every project, I get them involved. They are so willing to help and they have also put me in touch with people who need someone to install their gear. It goes both ways!

Chris Lancaster, Installer
