

**Product Code:** 11-143(10-50) & 11-144(10-50)

**Product Description:** 9mm and 13mm Pre-insulated MLC pipework

### Product Specification:

**Insulation Material** closed-cell polyethylene

**Fire Classification** C<sub>L</sub>

**Thermal Performance** 0,040 W/mK

**Internal pipework** PE-RT/AL/PE-RT (MLC)

**Sizes** 16-32mm Pipe

**Thickness** 9mm or 13mm

### Product Information:

Multipipe offers a range of pre-insulated MLC pipework's make an ideal solution for when you need an insulated pipe. Available in 9mm and 13mm insulation and available in red and blue colours for easy system identification. In the core is our Multipipe MLC pipe with sizes 16-32mm available in pre-insulated coils. The entire range is compatible with the Multipipe range of press and push fittings.

### Installation:

Pipework can be cut with a standard wheel or secateur cutters and the insulation can be cut to shape with a knife. We recommend that where bracketing the insulation is kept intact or you use a insulated pipe support.

### Pipework Data:

Pipe dimension (mm)	16x2	20x2.25	25x2.5	32x3
Internal Diameter (mm)	12	15.5	20	26
Water Volume (l/m)	0.113	0.19	0.14	0.531
Pipe roughness (mm)	0.0004			
Expansion Coefficient (mm/m K)	0.025
