

# 22-99994

The 22-99994 is a battery-powered, mini-size thermostatic radiator valve (TRV) controller using ZigBee wireless communication. Simply replace the existing, passive head on the standard radiator valve with the TRV. You can connect up to 6 TRV's to one 22-00002 thermostat used with the Smart Home gateway.

|                        |                      |
|------------------------|----------------------|
| Power Supply:          | 2x AA Batteries      |
| Wireless Standard:     | Zigbee 2,4GhZ HA 1.2 |
| Operating Temperature: | 13 amp               |
| Protection:            | IP30                 |
| Size (mm):             | W-52 H-85 D-52       |

## Features:

- Automatic valve adaptation
- Easy wireless pairing
- Manual on/off buttons
- LED status indication
- Buttons can be locked
- Frost protection function
- Open window detection function
- Limescale protection function
- Optional mounting ring
- Zigbee 2.4 GHz
- 5 year warranty
